1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Koda on 3-26-2003.

The application has been amended as follows:

In claim 11, line 9, the phrase   -in response to temperature changes- has been added after

**B1**  
the word "movable".

The above change has been made to more clearly distinguish claim 11 over the prior art of record. No prior art of record teaches the use of valve elements that are responsive to temperature changes in moving between open and closed positions in the claimed vacuum hold-down device.
